Dear Friends:

This is an exciting year! We have added many new iris to our garden and are growing one hundred and forty-four guests. We are awaiting the bloom of a few thousand new seedlings—and are anxious to see again some of those which bloomed last year. The grand-children of (Helen McGregor x Radiation) x Palomino are surely the most novel seedlings we have grown! Although the envisioned "tangerine-bearded Helen McGregor" has not yet been attained, the "by-products" are fascinating.

Again we invite you to visit our garden. Peak bloom is usually during the last week of May, but you will be welcome at any season. We can not decide which gives us the greater joy—the iris—or the friends we meet through this common interest. Many thanks for your nice letters and orders. We hope that your garden will perform beautifully this season and that every plant will be all you anticipate.

Sincerely,

Melba Hamblen

For additional iris pleasure, we urge you to join the American Iris Society. You will receive four valuable, illustrated Bulletins each year. The Bulletins contain information on iris culture. New varieties are described and their performance in various areas is commented upon. Through the "Robins" you will make many new friends. Dues are only \$5.00, family membership \$6.00.

You may mail your check or money order to The American Iris Society, 2237 Tower Grove Blvd., St. Louis 10, Missouri. New members—make your check to the American Iris Society and include it with your order. We will send it in for you and will allow you to select a \$5.00 iris as a premium.

OUR INTRODUCTIONS FOR 1958

ENCHANTED VIOLET (Hamblen) Midseason-Late. 36 inches. (Helen McGregor x Radiation) x (Palomino) Lovely light violet with closed standards and flaring falls which have just a hint of ruffling. A flash of pink and orchid in the center of the falls and a bright reddish-tangerine beard lights up the flower. Large blossoms of heavy substance. H. C. 1957 under name Enchanted. No. 53-27-1.Net **20.00**

VALIMAR (Hamblen) Midseason-Late. 36 inches. (Sister to Enchanted Violet and Gay Adventure) Beautiful, very smooth apricot-pink self with a wide nasturtion-red beard.. The flaring falls have a touch of ruffling, standards are closed, substance is exceptionally heavy. Strong, well branched stalks, often carrying three buds in each socket. No. 53-27H. H. C. 1957Net **20.00**

WE ARE HAPPY TO CO-LIST PART OF TELL'S 1958 INTRODUCTIONS

Many are one-year plants, but have made good growth and give promise of bloom.
(Descriptions by Tell.)

ETHEL HOPE (Mrs. Selma Jensen, Logan, Utah) Midseason-Late. 38 inches. (Chantilly x Fuchsia) Laced orchid and white, falls bordered deeper orchid. The flowers are small for the height but it excels as an arranger's iris under artificial light. Mrs. Jensen won an arrangement sweepstakes at the 1957 Iris show in Logan using this lovely flower. Ethel Hope should be most useful to breed laced pinks, orchids and small iris. Easy grower. A fine stock permits this price. Net **10.00**

GEORGIA MAESER (Luzon Crosby, Orem, Utah) Early-Midseason-Late. 36 inches. ((Tell's 46-204 : Midwest Gem x Mayday) x (46-2F : SQ 72 x Hall's 42-10) x Song of Songs)) x (Pink Enchantment) The most heavily laced yellow iris I have seen. Between Barium and Cadum yellow, falls slightly lighter in center. Flared falls, heavy substance. Winner of the seedling Cup at the 1957 Utah Iris Society Show, No. C 55-4B. Grand blood for laced things, blends, yellows, pinks and orchids.
.....Net **20.00**

JUNGLE BIRD (George Mayberry, Provo, Utah) Midseason-Late. 40 inches. (Tell sdlg: Miogem x Campfire Glow) x ((Tell's 51-66 sister sdlg: Aubanel x Mayday) x Lady Albright)) Surely the richest and smoothest blend I have ever seen. Standards Amaranth, falls Amaranth blended rich claret and violet. Large rhizomes and vigorous foliage, both of which seem very disease resistant. Should be a great breeder to produce very smooth things in blends, browns and possibly reds. Podded with some difficulty. Has pollen. Was compatible with Bang. Limited stock. No. 52-2-1.Net **25.00**

JUNGLE ROSE (George Mayberry) Midseason-Late. 40 inches. (Sister to Jungle Bird) This very wide old rose self is beautifully smooth, and classically formed. Also difficult to pod, but worth every effort. Has the same quality of stalk, rhizome and foliage as its darker sister. No. 52-2-2.Net **20.00**

MERRY LYNN* (Henry Till, Jr., St. Louis, Mo.) Early-Midseason-Late. 38-42 inches. (White Leather x Sdlg) x (Snow Goddess) Mignon (M and P 43-F-7) or near lobelia violet self. Beard heavy, colored cream at tip to orange-yellow in throat. The extra heavy stalk carries the large waved flowers to perfection. Vigorous foliage and healthy rhizomes. White Leather, being a sdlg. of Ormoir, gives this iris a dash of adventure for hybridizing. Pods easily and has most potent pollen on very difficult hybrids. A gorgeous flower that should look especially well in the show room.Net **20.00**

MOHR LACE* (Hazel Recknor, Creston, Iowa) Midseason-Late. 36 inches. (Elmohr x Snow Flurry) Yes, this unusual laced violet (looking as if it were a child of Chantilly) is from Snow Flurry pollen, so it is an unusual and exciting plant for many reasons. Fertile both ways, it holds great breeding potentiality for Mohr-blooded things, lace, ruffling and may even be useful for breeding laced purples, blacks and blues. Medium sized flowers, healthy foliage and rhizomes.Net 10.00

MOHR LEMONADE* (Tell) Early-Midseason. 36 inches. ((Ormaco x Cool Lemonade) x ((I. hoogiana x Indian Chief)) x Cool Lemonade)) The finest and widest pale lemon self (including beard) that I have grown or seen. Shows its onco-blood only in the width of the petals and the touch of oddness in the beard. The slight amount (1/8th) regelia (I. hoogiana) blood has imparted a certain vigor in the multiplication of the healthy rhizomes. I feel it holds great promise as a breeder for yellow and lemon onco-hybrids and should be most useful with the fertile C. G. White series, to which it proved most fertile. Has pollen and pods easily. No. 56-122.Net 15.00

MODERN DESIGN (Tell) Midseason-Late. 36 inches (Ola Kala x Fabulous Kate) Deep golden yellow self. Absolutely stunning in the yellows, and one of the last in the tall bearded season to bloom. This iris has its faults—the design is different—being open and twisted. It is particularly effective in arrangements, and for that purpose and its purity of color (I know of nothing exactly this color) I introduce it at a modest price. No. 51-106 B.Net 5.00

NEGRURA (Crosby) Early-Midseason. 28-34 inches. (Storm King x Solid Mahogany) x (Sable Night). About the blackest of black in flowers—the only off color is a touch of yellow showing in the beard. Full, copiously formed flowers of excellent substance. Grows about the same height as Black Taffeta. A sister to La Negriflor introduced last year. A fast and healthy grower. Small rhizomes. H. C. '5710.00

SILKEN DALIENCE* (H. Senior Fothergill, London, England) Early—with the intermediate and early falls. 28 inches. (Stolenifera x Bright Melody) The most charming Regelia-Tall hybrid I have seen. The color is violet-blue edged sienna-brown—quite a novel and intriguing flower. Striking in the garden and unusual under artificial light. Fertile both ways. A great and potential breeder. Vigorous.Net 10.00

UTAH MAHOGANY (Tell) Early-Midseason. 34 inches. (Aria x Crescendo) Almost a complete self is this rich and vibrant mahogany red. The flowers are large, the stalk well branched with many buds. Semi-flaring. Beard yellow. No haft markings. H. C. 1957 No. 56-44.Net 25.00

UTAH SUNRISE (Tell) Early. 36 inches. (D. Hall's brown blend 44-27 x Sunset Road) Blending of Onion-skin pink, yellow and tan. Big flaring flower on strong closely branched stalks. C. of C. 1957. No. 50-47.Net 10.00

MEDIAN INTRODUCTION

PAPER AND INK (Tell) Early, intermediate season. 14 inches. (Fairy Flax x Utah Sky) White standards, white falls with blue spot below beard. Flower size in keeping with the height. A charming novelty.Net 5.00

DWARF BEARDED IRIS

We have added some of the "small ones" to our garden. Charming little harbingers of Spring, heralding the Iris Season. Last year we were enchanted by their beauty — and we urge those of you who are not already growing these miniatures to share in the pleasure. Heights vary from three to ten inches for the Dwarfs, ten to twenty-eight inches for the Medians. Blooming in April and early May.

TERMS OF SALE

Mail orders — cash please — check or money order. All orders of \$10.00 or more will be prepaid, on smaller orders add 50c for postage.

Local Customers — thirty percent of sale will hold the order and you will be notified by mail when your Iris are ready.

SHIPPING DATES

Iris will be shipped from June 20th to October 1st. Early planting will allow your plants to obtain a full summer's growth. We have found that early planting produces more bloom and larger plants.

Orders will be filled in rotation, however, we will comply with requests for special shipping dates if possible.

GUARANTEE

GUARANTEE — All Iris true to name, free from disease and guaranteed to live and grow for you.

WHOLESALE

WHOLESALE prices quoted to authorized dealers and garden clubs where the order is large enough for us to do so. Send us a list of varieties and amount wanted. We will quote special prices.

DYKES MEDAL WINNERS

The Dykes Medal is the highest award an Iris can receive.
